

# Ali Mehdi Naqvi

New Delhi, India, 6388842837, alimehdinaqvi05@gmail.com

PROFILE	I'm an avid learner with a passion for continuously expanding my knowledge of new technologies, and I love applying that learning to build creative, unique projects. My tech stack includes HTML, CSS, JavaScript, ReactJS, TypeScript, NextJS, Sanity, and Tailwind CSS, which I use to develop engaging, hands-on projects. These projects give me practical experience and help me push the boundaries of what's possible with modern web development tools, all while honing my skills and staying at the cutting edge of the field
